

Compare Unlike Fractions by Finding a Common Denominator

Find common denominators and convert these fractions.

Put the appropriate symbol in the circle: $<$ $>$ $=$

$$\frac{4}{5} \rightarrow \underline{\hspace{2cm}} \quad \bigcirc \quad \underline{\hspace{2cm}} \leftarrow \frac{3}{6}$$

$$\frac{8}{12} \rightarrow \underline{\hspace{2cm}} \quad \bigcirc \quad \underline{\hspace{2cm}} \leftarrow \frac{5}{9}$$

$$\frac{6}{7} \rightarrow \underline{\hspace{2cm}} \quad \bigcirc \quad \underline{\hspace{2cm}} \leftarrow \frac{4}{5}$$

$$\frac{1}{2} \rightarrow \underline{\hspace{2cm}} \quad \bigcirc \quad \underline{\hspace{2cm}} \leftarrow \frac{4}{9}$$

$$\frac{9}{10} \rightarrow \underline{\hspace{2cm}} \quad \bigcirc \quad \underline{\hspace{2cm}} \leftarrow \frac{7}{8}$$
