

HALLAR EL VALOR NUMERICO

Sabiendo que: $a = 1$; $b = 2$; $c = 3$; $x = 2$

$$x^3 - 7x^2 + 9x - 7$$

$$5a^2b^3c$$

$$2a + b$$

$$5c + 2a$$

$$b - 2c$$

$$\frac{3}{2}b + \frac{2}{3}c + 2x$$
