

Вы проводите информационный поиск в ходе выполнения проектной работы. Определите, в каком из текстов A–F содержатся ответы на интересующие Вас вопросы 1–7. Один из вопросов останется без ответа. Занесите Ваши ответы в таблицу.

1. What people live on the continent?
 2. What is done to protect Antarctica's environment?
 3. How was Antarctica discovered?
 4. What would happen if Antarctica's temperature rose?
 5. How has the continent changed over the years?
 6. What are the colours of Antarctica's flag?
 7. Why is Antarctica often called a dry land?
- A.** Antarctica has no government and no country owns this continent. It is the only region on earth which is not ruled by any nation. There are no local people in Antarctica. However, in the summer season, more than four thousand scientists from different countries come to study the mysterious region while one thousand stay there in the winter season. The scientific bases are the only 'settlements' with residents who stay for several months or a year.
- B.** Antarctica is a huge desert, despite the fact that it holds 70 percent of the world's fresh water. Usually, no more than six centimeters of rain fall per year. Most of this falls in the eastern part of the continent. These figures are comparable to those of the Sahara desert. Some parts of Antarctica have had no rain or snow for the last 2 million years.
- C.** You will be surprised to know that Antarctica was found just 200 years ago. The ancient Greeks did not mark Antarctica on their maps. It was only in 1820 that travellers found this icy, white continent. Actually, it happened by accident. The captain of the Imperial Russian Navy, Fabian Gottlieb von Bellingshausen, was the first person who saw Antarctica from his ship. It was on 27th January 1820.
- D.** Antarctica contains about 90 percent of the world's ice. It also has 8 times more ice than the Arctic. If all of the Antarctic ice melted, the sea level around the world would rise about 70 meters. But the average temperature in Antarctica is -37°C and the ice is in no danger of melting so far. In fact, in most parts of the continent it never gets above freezing.
- E.** Since Antarctica is not a country, it has neither a state emblem nor an official flag. However, in 2002, a special flag was approved by the Antarctic Treaty Organization. The design of the flag was suggested by Graham Bartram who used the flag of the United Nations as its basic pattern. The white image of Antarctica on the blue background looks simple and elegant.
- F.** Fifty million years ago Antarctica had a mild climate, evergreen forests and many more kinds of animals than it has today. Due to continental drift, Antarctica moved from the equator to the South Pole, where it is today. Nowadays, Antarctica is the coldest continent on the planet and almost completely covered with a layer of ice. However, its wildlife is quite diverse: from emperor penguins and humpback whales to small bugs in the coastal areas.

Запишите в таблицу выбранные цифры под соответствующими буквами.

49E1EB

A	B	C	D	E	F

Прочитайте текст. Определите, какие из приведённых утверждений **13–19** соответствуют содержанию текста (**1 – True**), какие не соответствуют (**2 – False**) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (**3 – Not stated**). Запишите в поле ответа цифру **1, 2** или **3**, соответствующую выбранному Вами варианту ответа.

Eton

Within a ten minute walk of Windsor Castle, across a bridge over the River Thames, there's an old Gothic building. It is the legendary Eton College. It is one of England's largest independent schools and one of the highest in prestige. Members of the British royal family are traditionally educated here. It was one of the best schools when first founded and remains so now; it is still commonly known as one of the greatest schools among all the schools in the world.

Following the old tradition, Eton is a full boarding school, which means all students live and study at the school with their fellow students throughout the school year. Eton is also one of the four remaining boys' schools, so there's no opportunity for a girl to study there. Eton students traditionally come from England's wealthiest and most prestigious families, many of them aristocratic. Boys enter Eton at about 13 and continue to study there until they are ready to enter university.

The school was founded by Henry VI in the fifteenth century to provide free education for poor pupils who would then go on to get a higher education at King's College in Cambridge. That connection no longer exists today.

All students have a uniform of a black tailcoat and a waistcoat, a white collar and dark trousers. All students wear a white tie. This uniform is not for special occasions, it is worn at all times for all classes. If you visit Eton during term time, you will see students walking along the streets with books under their arms dressed in their uniforms.

At Eton, there are dozens of organisations known as 'societies', in many of which students come together to discuss a particular topic. The societies are traditionally governed by the boys themselves. Societies range from astronomy to Scottish dancing and stamp-collecting. Some of them are dedicated to music, some to arts, some to languages, and so on. Meetings are usually held after supper and often include a guest speaker. Among past guest speakers were composer Andrew Lloyd Webber, writer J. K. Rowling, designer Vivienne Westwood, and actor Ralph Fiennes.

One of the oldest and most influential Eton societies is called the Pop. Its members are like school head-boys or prefects who are given limited authority over other students. They are called Poppers and take an active part in many official events of the school year, including parents' evenings. While all students wear black waistcoats, members of the Pop are allowed to wear any waistcoat they please. Prince

William, when he was a Popper, wore a waistcoat designed like the British national flag. The style immediately became popular.

Irrespective of this, the official colour of the college is the so-called 'Eton blue'. It's a light blue-green colour which has been used since the early 19th century. The main purpose was to identify Eton sportsmen in rowing races and on the cricket field.

Eton is the oldest boarding school in Great Britain.

- 1) True
- 2) False
- 3) Not stated

In our time, girls are allowed to enter Eton College.

- 1) True
- 2) False
- 3) Not stated

Eton College was established to educate the children from the wealthiest British families.
