

Kinetic vs Potential

Decide whether it is **kinetic** or **potential** energy!

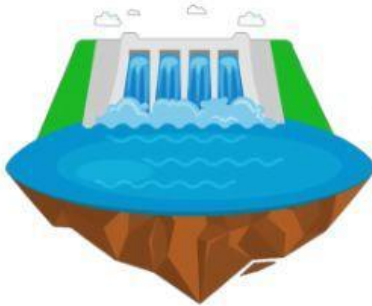

The ball on my hand hasenergy.

When I throw the ball, it isenergy.

The orange falling from the tree hasenergy.

The orange on the tree hasenergy.

Water hasenergy when the dam is closed.

Water hasenergy when it flows.

When a boy stands on a diving board, he has..... energy.

When a boy jumps from a diving board, he hasenergy.

When the light switch is off, it isenergy.

When the light switch is on, it isenergy.

When a cat is sleeping it isenergy.

When a cat is catching a mouse itenergy.
