

PALABRAS ENCADENADAS

A word chain puzzle consisting of two rows of five light blue squares. The first square of the top row contains a trophy. Arrows connect the squares in a sequence: from the trophy square to the second, third, fourth, and fifth squares of the top row; from the fifth square to the first square of the bottom row; and from the first to the second, third, fourth, and fifth squares of the bottom row.

Below the word chain are ten icons in rounded squares, arranged in two rows of five:

- Row 1: A brown pig, a brown loafer shoe, a shovel, a yellow mug, and a green lizard.
- Row 2: A wooden bunk bed, a red tomato, a silver fork, and a silver spoon.
