[week 4] Bài tập Thứ 7

Types of energy sources

1 **Listen and read.** 69

Lan: Hi, Dad.

Mr Tan: Lan, what are you doing? It's pretty late now.

Lan: I'm doing a project on energy sources. But I don't quite understand what energy is.

Mr Tan: Well, it's power that we use to provide us with light, heat or electricity.

Lan: Oh. Where does it come from?

Mr Tan: It comes from many different sources like coal, oil, natural gas, ... We call them non-renewable sources.

Lan: Can it come from the sun, wind or water too?

Mr Tan: Yes, it can. We call those types of energy renewable sources because we cannot run out of them. Renewable means we can easily replace them.

Lan: I get it now.

Mr Tan: You know, some types of energy are cheap and easy to use, but others are more expensive and harder to find ...

LIVEWORKSHEETS
