

## [week 4] Bài tập Thứ 7

### Types of energy sources

#### 1 Listen and read. (69)

**Lan:** Hi, Dad.

**Mr Tan:** Lan, what are you doing?  
It's pretty late now.

**Lan:** I'm doing a project on energy sources. But I don't quite understand what energy is.

**Mr Tan:** Well, it's power that we use to provide us with light, heat or electricity.

**Lan:** Oh. Where does it come from?

**Mr Tan:** It comes from many different sources like coal, oil, natural gas, ...  
We call them non-renewable sources.

**Lan:** Can it come from the sun, wind or water too?

**Mr Tan:** Yes, it can. We call those types of energy renewable sources because we cannot run out of them. Renewable means we can easily replace them.

**Lan:** I get it now.

**Mr Tan:** You know, some types of energy are cheap and easy to use, but others are more expensive and harder to find ...

**2** What are Lan and her father talking about?

- A. Energy
- B. Sources
- C. Energy sources
