

Listen and practice!

 1	<p>First, a female butterfly lays her eggs on leaves or stems of plants.</p>
 2	<p>Next, the egg hatches and the caterpillar leaves. In this stage the caterpillar eats all the time.</p>
 3	<p>Then, the caterpillar forms itself into a pupa. This is the stage of transformation.</p>
 4	<p>Finally, when the caterpillar changes inside the pupa, it becomes a butterfly.</p>
