21. A. unemployed	B. employment	C. unemployment	D. employ
22. A. that	B. whose	C. who	D. whom

VI.Read the passage, then decide if the statements that follow it are True or False

The Problem of Garbage

Every one of us produces garbage of one kind or another. Some of the garbage is thrown into the sea. Some is burnt or buried under the ground. Every year we need to find about 800,000 cubic meters of empty land just to bury the garbage. This is the same as filling one football stadium with garbage up to 20 meters high!

This garbage damages the environment. Although a lot of garbage is buried in the ground, some of it gets blown about in the wind. Also, when garbage is burnt, poisonous gases are given off into the air. The garbage thrown into the sea will pollute the water.

What can we do about these problems? Well, one very easy answer is to produce less garbage. We can recycle things made from glass and paper as well as tin cans. People can refuse to take the plastic bags from the shops and supermarkets by bringing with them their own bags or baskets when they go shopping.

The government should tell people about the dangers of the pollution caused by garbage. Education is perhaps the most important factor for keeping our environment healthy for the future.

23. Poisonous gases are given off when we burn rubbish.

24. We should use plastic bags whenever doing the shopping in supermarkets.

25. Educate people is probably the most important way to protect the environment.

26. The government is responsible in telling people about the threat of pollution caused by garbage.

27. Which of these **don't** we usually do with our garbage?

A. Bury it in football stadium. B. Throw it into the sea.
C. Burn it. D. Bury it in the ground.

28. Which of these can't be recycled?

A. Glass B. Paper C. Tin cans D. Poisonous gases

VII. Use the correct form of the word given in each sentence

29. My friend was very .....when he got the job. (surprise)
