QUANTIFIERS

Quantifiers

I		a lot of	nuts.
You		some	biscuits.
We	need	a few	raisins.
They		a lot of	butter.
He	needs	some	cream.
She		a little	flour.

Grammar clue

We use **How many** to ask questions about things we can count. **How many** nuts do they need?

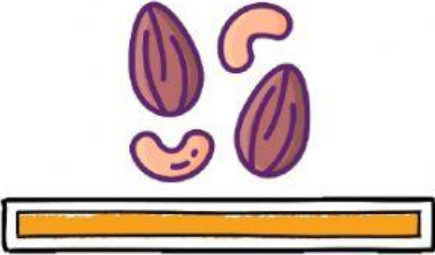

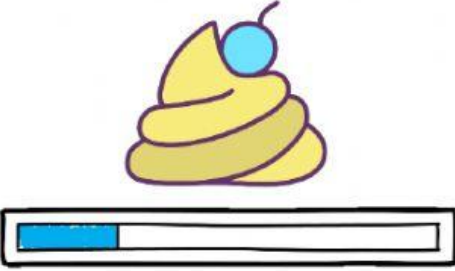

We use **How much** to ask questions about things we can't count. **How much** sugar does he need?

1. Look at the pictures. Decide whether you can count the food or not. Choose the correct option to complete the question.

	1. How many/much raisins do you need?
	2. How many/much oil do they need?
	3. How many/much flour does she need?

	4. How many/much biscuits do we need?
	5. How many/much salt do you need?

2. Look at the pictures and answer the questions. Decide your answers taking into account the progress bar that represents the amount of food needed.

	1. How many nuts do you need? I need _____ nuts.
	2. How much jam do we need? We need _____ jam.
	3. How much cream does he need? He needs _____ cream.

	4. How much sugar do they need? They need _____ sugar.
	5. How many chocolate chips does she need? She needs _____ chocolate chips.

3. Look at the conversations. Fill in the gaps using **need** or **needs**.

A: Hey mum, I'm going to the supermarket. Do you need something? B: Yes, honey. I _____ a few coconuts please.	
A: Hey dad, where is Susan? B: She is at the supermarket. She _____ a little sugar for her cupcakes.	
A: What does Luke need to make a cupcake? B: He _____ some sugar, flour and chocolate chips.
