

MONEY SOLVING PROBLEMS

How much would it cost to buy 2 bunches of bananas, 5 apples and 6 peaches?

How much would it cost to buy 1 pineapple, 12 oranges and 3 bunches of grapes?

You have R5.00. Can you afford to buy 12 peaches?
Work out how much change you will get or how much more money you need, if not.

You have R12.00. Can you afford to buy 2 pineapples, 6 peaches, 8 apples, 24 oranges? Work out how much it will be and how much change or more money you will need.

You have R15.00. Can you afford to buy 4 pineapples, 12 peaches, 8 apples and 24 oranges? Work out how much it will be and how much change or more money you will need.

WELL DONE!
