Un Algoritmo es un de
detalladas y que una computadora o
un robot debe seguir paso a para que
pueda realizar una o solucionar un
problema.

2. Ordena los comandos del algoritmo en forma correcta en los recuadros en blanco, para mover al Bot donde te indican en el cartel.

The image shows a digital puzzle interface. On the left is a 6x6 grid with various objects: a purple tank in the top-left, several black bombs scattered around, a blue square with a face, a pink heart, a white hexagon with a face, and a green triangle with a face. On the right is a large, friendly blue robot with a speech bubble that says "Programa tu bot para que se mueva a" followed by a blue square with a face. Below the robot is a blue button labeled "Verificar". To the right of the robot are four icons: a question mark, "0 puntos", a right-pointing arrow, and a gear. At the bottom are two small purple tanks and a row of command icons: eight white rectangles above a row of green right-pointing arrows, a blue up-pointing arrow, and three red down-pointing arrows.
