3. Прочитай текст и выпиши из него ДВА лишних слова (через запятую) в порядке их упоминания в тексте:

Four kinds of celebrity were included in the sample. The most narcissistic they were the ones who had become famous through reality TV shows – they scored highest on vanity and willingness to exploit other people. Next came comedians, who scored highest on exhibitionism and feelings of superiority. Then came actors, and the least narcissistic were musicians. One so interesting result was that there was no connection between narcissism and the length of time the celebrity had been famous. This means that becoming famous probably did not make the celebrities narcissistic – they already were beforehand.
