

## SUMMER by Calvin Harris

When I met you in the winter / summer

To my heartbeat's sound

We / they fell in love

As the leaves turned red / brown

And we could be together, baby

As long as skies are blue / light blue

You act so innocent now

But you lied so soon

When I met you in the summer / winter

When I met you in the summer / winter

To my heartbeat's sound

We / they fell in love

As the leaves turned red / brown

And we could be together, baby

As long as skies are blue / light blue

You act so innocent now

But you lied so soon / late

When I met you in the winter / summer

Summer

When I met you in the winter / summer ... Summer
