

## Advanced\_Grade-3\_Multiplication and Division

### Multiplication and Multiplication Facts

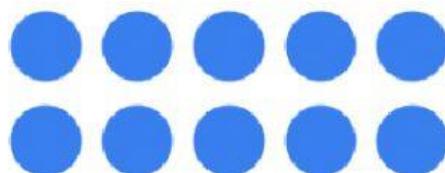

Which expression describes this array?

$4 \times 5$

$3 \times 4$

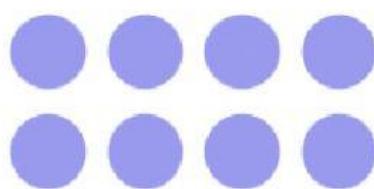

Which expression describes this array?

$2 \times 5$

$4 \times 5$

Which expression describes this array?

$2 \times 5$

$2 \times 4$

Complete the multiplication number sentence that describes the array.

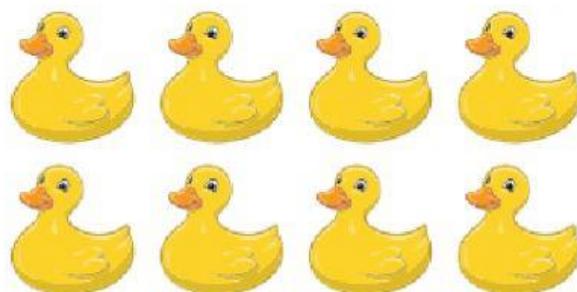

$$\square \times 3 = 6$$

Complete the multiplication number sentence that describes the array.

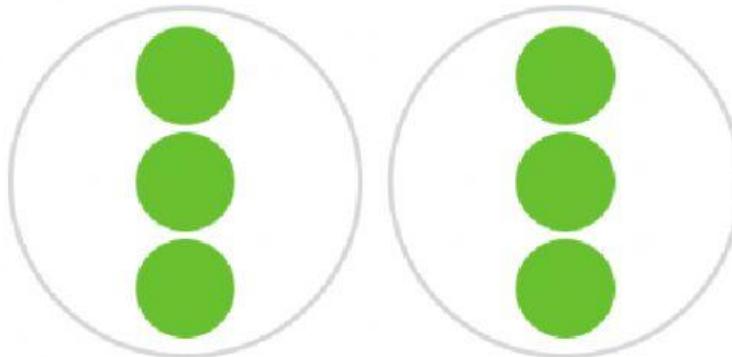

$$\square \times 3 = 9$$

Complete the multiplication number sentence that describes the array.

$$\square \times 4 = 8$$

Here are three ways to describe the model. Fill in the blanks.

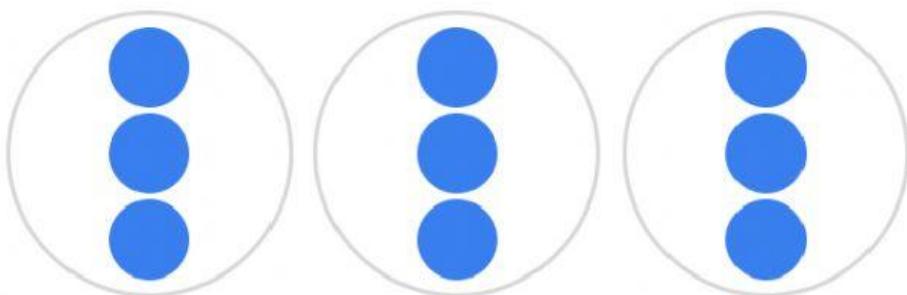

There are  groups of 3 dots.

$$3 + 3 = 6$$

$$\square \times 3 = 6$$

Here are three ways to describe the model. Fill in the blanks.

There are  groups of 3 dots.

$$3 + 3 + 3 = 9$$

$$\square \times 3 = 9$$
