Describing my house

Paragraph 1: I live in a small apartment with my parents and my younger brother. The apartment is in a large block just outside the town. There are two other blocks, an old supermarket and a new cinema in the same street. There aren't any other shops in the area, although it's very easy to get a bus into town.

Paragraph 2: The apartment only has got two bedrooms, so I have to share a room with my brother, but the beds are comfortable. There are two bathrooms, a modern kitchen and a large living room. The kitchen is not very large, but there's a small table and a fridge. I usually do my homework in the kitchen because it's quiet and peaceful. On the other hand, the living room it's bright but very noisy. In this room, there are two new armchairs and an old fireplace.

Paragraph 3: We often go to the cinema in the evening, because it's very near our home. It's also pretty cheap. We don't eat in restaurants very often, but we sometimes have a special meal when it's somebody's birthday. There aren't any restaurants nearby, so we have to get a bus into town
