

**Listen to the audio as many times as you need to, and then fill in the blanks.**

A website that provides price \_\_\_\_\_ for flights, hotels and car hire across the \_\_\_\_\_ has made some bold \_\_\_\_\_ for what travel will look like in a \_\_\_\_\_ from now. Perhaps the most \_\_\_\_\_ destination for 2024 holidaymakers will be a \_\_\_\_\_ to the Moon or a stay in \_\_\_\_\_. The \_\_\_\_\_ Skyscanner.com has just \_\_\_\_\_ a \_\_\_\_\_ of what holidays in the not-too-distant \_\_\_\_\_ might look like. The report is \_\_\_\_\_ 'The Future of Travel 2024' and \_\_\_\_\_ a whole series of previously \_\_\_\_\_ vacation \_\_\_\_\_ for the \_\_\_\_\_-seeking traveller and those who just want to get there quicker. The report is a \_\_\_\_\_ of the \_\_\_\_\_ between travel experts and international technology experts.

\_\_\_\_\_ in space are perhaps the most \_\_\_\_\_ of Skyscanner's predictions. Its report says: "Orbital space travel will be the next hot \_\_\_\_\_, and commercial companies are \_\_\_\_\_ up to make it a more \_\_\_\_\_ proposition." Indeed, Virgin Galactic and SpaceX are already \_\_\_\_\_ bookings. The cost of a \_\_\_\_\_ on the Virgin craft (\_\_\_\_\_ trip, of course) is \$250,000. Skyscanner also \_\_\_\_\_ an \_\_\_\_\_ in the number of \_\_\_\_\_ hotel rooms, which it says will become a \_\_\_\_\_ travel option. Other things to look \_\_\_\_\_ to include a supersonic \_\_\_\_\_ that will fly London-Sydney in two hours and the \_\_\_\_\_ of "danger-zone" \_\_\_\_\_. We can also \_\_\_\_\_ futuristic advances in shopping and \_\_\_\_\_.
