WHILE READING! Read the text identifying and underlining the key words.

Urban Tribes Made in Chile.

Urban tribes are not new, in fact, they date back hundreds years. Urban tribes are made up by groups of people – usually young people, and they share a special ideology, the same identity symbols, the same rules, the same language and the same music. Chile is not the exception, copying and adapting foreign styles; our youth is creating new movements, *Urban Tribes made in Chile*.

A **Pokemones**: It is currently one of the largest and better known urban tribes in the country. The Pokemones may take their name from the "pocket monsters, They have spiked and dyed hair and multiple piercings. They like parties and reggaeton music. They make extensive use of the Internet, trading photos of themselves and using sites like Fotolog.

B **Pelolais** means the straight haired girls. The pelolais are described as cuicas –, rich girls. Most of them go to private schools. They also like Fotolog and Messenger. Pelolais girls define themselves as "queens". But some people define them as egocentric and vain people.

C **Rappers**: They love rap and hip-hop music. They have a peculiar style: they wear wide clothing, sports shoes, caps and earrings. Many are linked to the graffiti world and they consider themselves artists. They usually have their own greetings and special handshakes.

D **Skin Heads:** They are a violent group. The most representative point is their shaved hair. They wear nylon jackets, Nazi emblems and military boots.

E **Gothics:** They love black colour. Both their clothes and their makeup are black. Their favourite music style is the Gothic rock. They love everything associated with obscurantism, but they are not a violent group. On the contrary, this tribe loves tolerance and diversity.

F **Punks:** They are known as anti globalization groups. As with other tribes, they share some specific music and fashion styles like wearing tartan pattern. They wear used clothes, mostly black (combined with other explosive colours).

G **Emos:** Usually dressed in black, with painted lips and eyes, they are usually depressed and hate life in general, which to them is meaningless. The "emo" term comes from 'emotional'. So they love listening to sad songs.

H **Lanas:** They Chilean way to be Hippie. They wear colourful clothes, handmade jewellery, raw material tops and pants; they are pacifist and they are against any form of oppression.

4. ***Have a look at the images, can you name them according to their style?***
