

My Best Friend

by Jane Asher

My best friend is Sophie. She is sixteen years old. We first met at a school party when we were 12. Now we do everything together and we hang out all the time.

Sophie is very pretty and she's a really nice person. She's quite tall with long dark hair and big brown eyes. She is very friendly and has time for everyone. She is patient and helpful and will always help you out if you have a problem with your homework. She's also a very good listener and wise! She gives excellent advice. She's very lively and loves talking. Sometimes she talks too much!

Sophie is very creative and loves writing stories and poems. She often wins the first prize in any short story competitions she enters. I am not surprised because she is imaginative and very good at writing. She wants to be an author one day. She also likes listening to music and she plays the piano.

All in all, I think that Sophie is a wonderful person. We always have a great time together and I am very happy to have her as my best friend.

Read the text above then write about your best friend.
