

MATEMÁTICAS

1.- COLOCA LA FÓRMULA EN SU LUGAR Y CALCULA EL ÁREA

$$\frac{(\text{Base mayor} + \text{base menor}) \times \text{altura}}{2}$$

$$\frac{\text{Base} \times \text{altura}}{2}$$

Base x altura

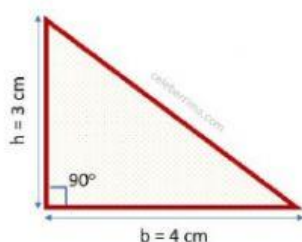

Lado x lado

$$\frac{\text{Perímetro} \times \text{apotema}}{2}$$

$$\frac{\text{Diagonal mayor} \times \text{diagonal menor}}{2}$$

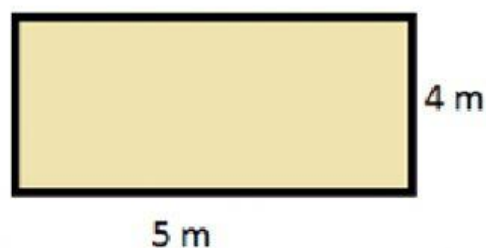

$\pi \times r^2$

Base x altura

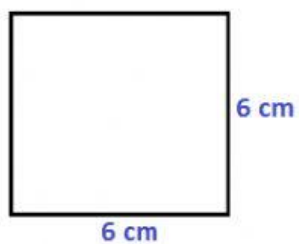

FÓRMULA:

ÁREA: cm^2
