

A Bad Toothache

Listen and put the dialogue in order.

Is it something bad?

Hmmm. Let me check

Not good doc. I'm having a bad toothache.

Not that bad we'll fix them up with composite filling

Well, nothing unusual for a sweet tooth like you! You have another set of cavities

Hello Jodie. How are you doing?

Ouch! But I have been taking good care of my teeth.

Yes. I know you are right. Are the cavities really bad?

Not that bad. We'll fix them up with composite filling. The gaps you have between your teeth makes you prone to frequent cavities.

The gap between your teeth make you prone to frequent cavities. This is the reason I keep on asking you to visit the dentist once every six months to maintain your oral hygiene
