

## 6th GRAMMAR UNIT 1

### Too many / too much / too

We use *too much*, *too many* and *too* to say that there is more than necessary of something.

#### Remember!

- *Too many* goes before a countable noun.
- *Too much* goes before an uncountable noun.
- *Too* goes before an adjective.

|          |          |                 |                          |
|----------|----------|-----------------|--------------------------|
| I've got | too many | computer games. | before countable nouns   |
| There is | too much | water.          | before uncountable nouns |
| This is  | too      | difficult.      | before adjectives        |

### Enough

We use *enough* to say that there is sufficient of something.

#### Remember! *Enough* goes

- before a noun.
- after an adjective.

|                       |        |            |                    |
|-----------------------|--------|------------|--------------------|
| There aren't          | enough | computers. | before a noun      |
| This smartphone isn't | big    | enough.    | after an adjective |

### Superlatives

We use *the* + superlative adjectives to say which is the biggest, the smallest, etc in a group.

| Adjective | <i>the</i> + superlative adjective |   |
|-----------|------------------------------------|---|
| cheap     | <b>the</b> cheapest                | We add <b>est</b> to adjectives that have one syllable.   |
| big       | <b>the</b> biggest                 | We add <b>one more consonant + est</b> when adjectives end in a vowel + a consonant.                    |
| friendly  | <b>the</b> friendliest             | We change the <b>y</b> to <b>i</b> and <b>i + est</b> when the adjective ends in consonant + <b>y</b> . |
| expensive | <b>the most</b> expensive          | We add <b>the most + the adjective</b> when the adjective has two or more syllables.                    |

- We also add *the + -est* to ones with two syllables if they end in **-er**, **-ly**, **-y**.  
– (CLEVER) The cleverest, (FRIENDLY) The friendliest.  
(TASTY) The tastiest.  
Note that the “y” becomes “i”.
