

We use comparative adjectives + *than* to compare things or people.

Adjective	Comparative adjective + <i>than</i>	
small	smaller than	We add <i>er</i> to adjectives that have one syllable.
big	bigger than	We add one more consonant + <i>er</i> when adjectives end in a vowel + a consonant.
beautiful	more beautiful than	We add <i>more</i> + adjective when the adjective has two or more syllables.

- We also add -er and than to ones with two syllables if they end in -y. Note that the "y" becomes "i".
