

Cálculo Mental 6º de EP 3

Estrategia: Multiplicar el número por 3 y dividir el resultado entre 2.

Ejemplo: $3 \times 1,5 = (3 \times 3) / 2 = 9 / 2 = 4,5$

- | | | |
|-------|--------------------|--|
| I. | $10 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| II. | $20 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| III. | $100 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| II. | $24 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| V. | $33 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| VI. | $70 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| VII. | $19 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| VIII. | $16 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| IX. | $14 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
| X. | $32 \times 1,5 =$ | <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> |
