- tradeswoman/tradeswomen (for women)

A job in the construction industry?

The construction industry has different trades or 'crafts'. A tradesperson is a specialist and normally has a qualification from a vocational school or other training institute. Plumbers, electricians and roofers are all tradespeople. Other tradespeople on residential housing projects include carpenters, painters and concrete finishers. Tradespeople are often subcontractors and work for a general contractor or a client.

Vocabulary

3 Write the plurals for 1–5.
