- Article Title:** Victory for Cybernia
- Text:** The victorious Cyberian Inter-galactic Forces report:
Yesterday we invaded Planet Upstart with a large force. We have completely crushed the year-old rebellion there. Our space ships have destroyed ninety per cent of the Upstart space fleet. A special Cyberian task force landed near the central communications building and captured it without difficulty. We immediately broadcast a message to the population announcing that we had liberated them from the illegal Upstart government and we called on them to cooperate with the new government of their planet. We have arrested the rebel leaders and we are taking them back to Cybernia where the government will put them on trial.

Fill in the gaps below with the passive form of the verbs in the *Cyberian News* above.
