- 7 I don't want to \_\_\_\_\_ money on gadgets I don't need.  
invest waste charge
- 8 If you want to start your own business, you might need a \_\_\_\_\_ from a bank.  
budget loan tax

## READING

### 1 Read the article and tick write A, B, or C in the box.

When she was 17 years old, Jessica Matthews went to her uncle's wedding in Nigeria. As a Nigerian American, Jessica visited every summer to see her cousins and other family members. She was not surprised when there was a power cut, or 'black out', because the electricity usually went off at least once a day. She was not surprised when the family used kerosene lamps (which are smelly and unhealthy) so that the wedding could continue. But Jessica was upset by her cousins' reaction. 'Don't worry about the lamps', they said. 'You'll get used to them.'

Jessica didn't understand why her cousins accepted the situation as normal. In contrast, the children around her in Nigeria thought anything was possible when it came to football. They wanted to play like Pele, like Ronaldo — and they believed this dream would come true. Jessica wished they could play and have the opportunity to change their society.

Two years after the wedding, Jessica had the idea for an invention during a science class at university. She combined the problem of power cuts with the solution of football: she wanted to build a football that created energy. But was it really possible? Since that class in 2008, she's been working hard to find out.

In 2011, Jessica started a company called Uncharted Play. It took several years to develop her football, and people in the sports industry said it would never work. But after many different designs, the finished football — called a Soccket ball — works perfectly. It is only 28 grams heavier than a normal ball, but inside it contains special technology. The movement of the football creates power. After 30 minutes of play, the ball can power a small lamp for 3 hours. In fact, every ball comes with a free lamp too! Uncharted Play also developed a skipping rope that uses the same technology.

Jessica still sells the Soccket ball, but her business has developed and grown. Recently, the company has changed its name to Uncharted Power. In the company's New York office, Jessica has invented new products using the same idea of energy from movement. The technology from the Soccket ball has been added to wheels for shopping trolleys, bicycles and skateboards. And a new product allows energy to be created by walking or running on a special floor. Jessica hopes this will be used in homes and businesses.

Jessica's inventions tackle a huge problem. In 2017, the World Bank reported that countries in sub-Saharan Africa lose 2.1% of their income each year through power cuts. And one in three people in the region regularly have no access to electricity. Jessica imagines a new kind of city where people create energy simply by doing their normal activities. She has been visiting schools to discuss these ideas with the next generation of inventors. What will they imagine?

- 1 \_\_\_\_\_ is one name for when electricity stops working.  
A A lights off B A power cut C An electric out
- 2 At the wedding, Jessica's cousins knew the kerosene lamps were \_\_\_\_\_.  
A unhealthy B working C surprising
- 3 She wanted people to be as \_\_\_\_\_ as the children dreaming about football.  
A positive B free C happy
- 4 Jessica was 19 years old when she \_\_\_\_\_.  
A started a company B had the idea for an invention  
C made the Soccket ball
- 5 Some people in the sports industry said Jessica's ball \_\_\_\_\_.  
A was too heavy B was impossible C was an experiment
- 6 The company's skipping rope also creates \_\_\_\_\_.  
A a lamp B a wheel C a ball

A power through play B 30 minutes of play C light

7 Jessica's company has \_\_\_\_\_ since the success of the Soccket ball.  
A moved office B developed a new idea C changed name

8 One new product creates power using the \_\_\_\_\_ of buildings.  
A windows B floor C walls

9 The World Bank report says that \_\_\_\_\_ in sub-Saharan Africa lose money because of black outs.  
A families B inventors C countries

10 Jessica wants \_\_\_\_\_ to develop her ideas about the cities of the future.  
A young people B her company C the World Bank

**2 Read the article again and decide if they are true or false. write T or F in the box.**

- 1 The wedding guests were surprised by the black out.
- 2 The idea for Jessica's invention came from her experiences playing football.
- 3 Jessica has been working on her invention since 2008.
- 4 The Soccket ball is heavier than a normal football.
- 5 According to a study, sub-Saharan countries lose about a quarter of their income through power cuts.

**LISTENING**

**Listen to audio 1 and decide if the following sentences are correct or incorrect.  
Write C or I in the boxes.**

- 1 Jo's been working in schools for 1 year.
- 2 She thinks teenagers often aren't interested in her advice.
- 3 Many young people have no experience with money before they leave home.
- 4 Jo's advice can stop young people owing money to banks.
- 5 Jo teaches young people to plan what they are allowed spend each month.
- 6 According to Jo, banking apps are not safe.
- 7 Jo offers advice about email banking scams.
- 8 There is a problem with online banking in public places.

## File Test 2

### Listening and Speaking B

**2 Listen to five conversations (audio 2). Write A, B, or C in the boxes.**
