

Elephant

Elephants are the largest land animal in the world. They are from Asia and Africa. They are herbivores. They eat grass, leaves, branches and fruit. An elephant has a big body with four legs. It has large but thin ears and small eyes. It also has one long nose called trunk.

It uses the trunk to lift the food. Its skin is grey and hairless. It has a short tail.

Their habitat is usually in the forest or in the zoo. The elephants are strong animals. They can carry heavy loads.
