

MOLTIPLICAZIONI PER 10, 100, 1000

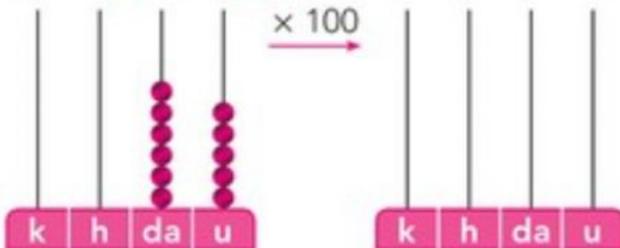

1 Osserva l'esempio e continua tu.

$$24 \times 10 = 240$$

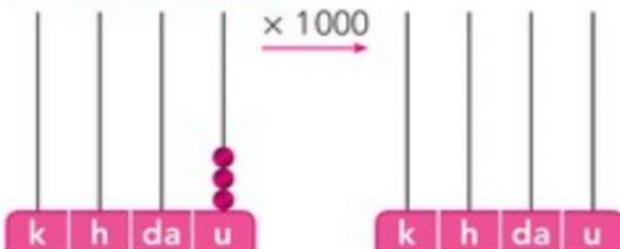

Ogni cifra vale **10** volte di più.
Le u sono diventate _____ e le da _____.

$$65 \times 100 = 6500$$

Ogni cifra vale _____ volte di più.
Le u sono diventate _____ e le da _____.

$$3 \times 1000 = 3000$$

Ogni cifra vale _____ volte di più.
Le u sono diventate _____.

2 Calcola in riga.

- $25 \times 10 = \underline{\hspace{2cm}}$
- $62 \times 10 = \underline{\hspace{2cm}}$
- $53 \times 10 = \underline{\hspace{2cm}}$
- $132 \times 10 = \underline{\hspace{2cm}}$
- $309 \times 10 = \underline{\hspace{2cm}}$
- $711 \times 10 = \underline{\hspace{2cm}}$
- $815 \times 10 = \underline{\hspace{2cm}}$
- $902 \times 10 = \underline{\hspace{2cm}}$

3 Calcola in riga.

- $14 \times 100 = \underline{\hspace{2cm}}$
- $39 \times 100 = \underline{\hspace{2cm}}$
- $88 \times 100 = \underline{\hspace{2cm}}$
- $94 \times 100 = \underline{\hspace{2cm}}$
- $27 \times 100 = \underline{\hspace{2cm}}$
- $92 \times 100 = \underline{\hspace{2cm}}$
- $45 \times 100 = \underline{\hspace{2cm}}$
- $79 \times 100 = \underline{\hspace{2cm}}$

4 Calcola in riga.

- $3 \times 1000 = \underline{\hspace{2cm}}$
- $4 \times 1000 = \underline{\hspace{2cm}}$
- $2 \times 1000 = \underline{\hspace{2cm}}$
- $6 \times 1000 = \underline{\hspace{2cm}}$
- $9 \times 1000 = \underline{\hspace{2cm}}$
- $8 \times 1000 = \underline{\hspace{2cm}}$
- $7 \times 1000 = \underline{\hspace{2cm}}$
- $5 \times 1000 = \underline{\hspace{2cm}}$
