Homework Week 5 Tuesday

Reading Homework:

Sidewalk Paint

Take your neighborhood sidewalk a work of art this summer! Mix up your own sidewalk paint in a variety of colors, then head outside to paint. Your neighbors will enjoy looking at your beautiful designs all summer long.

Materials

- 1/4 cup corn starch
- 1/4 cup water
- 8 drops of food coloring (any color)
- plastic container with lid
- paint brushes

Directions

1. Mix the cornstarch and water together in the plastic container, then add the food coloring. Stir well.
2. Make a variety of colors and store each in a separate container. Use brushes to paint beautiful designs on the sidewalk or driveway.
3. Keep in mind that the paint washes off with water, so your colorful pictures will disappear after a rain shower.

1. The main reason the author wrote these directions was to –

A. amuse children with a fun story about painting
B. explain how to make something for a fun activity
C. tell students how to become better artists
D. share ingredients for making a tasty treat

2. The author most likely includes step 3 to -

A. list materials needed to make paint
B. explain what will eventually happen to the paint
C. describe how to store the paint so it doesn't dry out
D. tell who would enjoy the paint
