UNIT 7: DAILY ACTIVITIES

Choose the item among A, B, C or D that best answers the question about the passage.

Routines save time and energy because you do them without thinking. That is why they are so important in the morning when your brain isn't really active. Here is Ann's talking about her morning routine. " I always do exactly some things. I wake up at seven o'clock every morning but I don't get up till a quarter past seven. I switch on the radio and listen to the news. Then I go to the loo and I brush my teeth. I have a shower and dry my hair. I just have a cup of coffee. Then I go to work. It's always the same." Routines are very useful, but they also make you uncreative. So sometimes it is a good idea to break your routines. Get out of bed on the opposite side. Listen to a different radio station. Take a different route of work. Eat something different for breakfast. Change your routine. You never know, it changes your life.
