Name: _____ Date: _____

Technical and Operational Definition Worksheet

Direction: Give the technical definition of the following words.

1. Slay
2. Laptop
3. American
4. Wise
5. Careless

Direction: Provide the operational definition of the underlined words. Try to come up with operational definition for emotions, behaviors and states of being. While you are doing this keep in mind that an operational definition is one that makes it clear how the researcher should go about measuring the process, activity, or thing.

Example:

Does this drug help people overcome their tiredness?
Possible Answer: How long someone sleeps

1. Athletes in college are not as smart as regular students.

2. After retiring, he dedicated his life to philanthropy.

3. Boys show more affection towards their father than their mother.

4. Jacksonville has produced excellent graduates in engineering.

5. I'm the type who never settles for mediocre outputs.
