Listening 3 (Answers)

You will hear a zoo guide talking about some animals.
Answer the questions.

1. Where are these animals from?

They are from South America.

2. What do llamas and alpacas have in common?

They have in common that both of them are domesticated animals.

3. Which animals spit?

All the members of the camelid family spit.

4. Why is the alpaca well known?

It is well known because of its wool.

5. Who could wear vicuñas' wool in the past?

Only the Inca royal family could wear it.

6. How do guanacos survive in the desert?

They survive in the desert by licking the water off desert plants.

7. When do llamas hum?

Llamas hum when they are stressed or relaxed.

8. For what are llamas used nowadays?

They are used for trekking and for protecting farm animals.
