Nick's Summer Vacation

In June Nick visits his grandparents and he stays with them in their cottage near a river. In the mornings, he **often** goes fishing to the lake with his granddad. On their way home, they **sometimes** pick berries. Then he **usually** meets his friends, and they play badminton or ride their bikes. **Sometimes** he helps his grandma in the kitchen. They make a cake or apple pie.

In July, Nick's family **always** goes on vacation. They **normally** go to the seaside. It's usually hot and sunny, and they spend a lot of time at the beach. His father and brother love windsurfing, his mum **always** sunbathes because she wants to get a nice tan and Nick **usually** plays beach ball, builds sandcastles and swims in the sea. However, Nick **never** goes windsurfing, he doesn't like going out on the water and he is afraid of big waves.

Every August, Nick goes camping with his friends. They **always** sleep in tents at the campsite. They **always** have a great time. They go hiking, they climb mountains, play, and talk a lot. In the evenings, they **usually** make a campfire. They sing, dance, and enjoy themselves.
