

	Matemática	Prof. ^a Ana Lucia Maia	
	Atividade Contínua	Em	
	Nome: _____	6º ano	

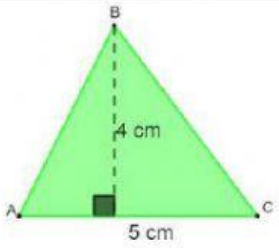

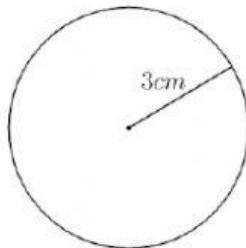

1) Assinale a resposta que apresenta o perímetro de cada figura:

									
64 cm		52 cm		48 cm	165 cm		156 cm		132cm

2) Calcule a área de cada figura utilizando o  como unidade de medida:

			
I =	II =	III =	IV =

3) Aplicando as fórmulas calcule a área:

	
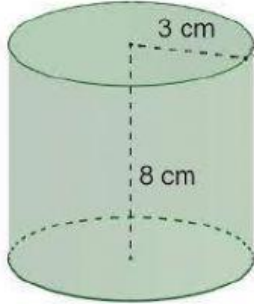

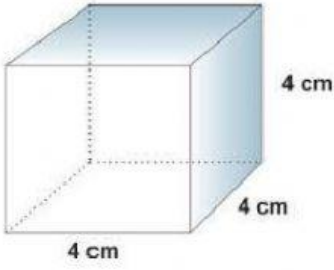

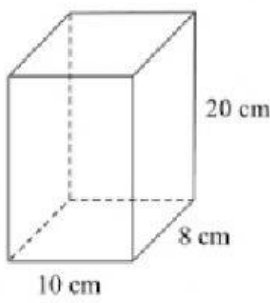

A =	A =

4) Arraste e cole a fórmula matemática utilizada para calcular o volume dos seguintes sólidos geométricos:

$V = a \times a \times a$	$V = \pi \times h \times r^2$	$V = C \times h \times l$
---------------------------	-------------------------------	---------------------------

5) Arraste e cole o resultado do volume de cada sólido.

$V = 1.600 \text{ cm}^3$	$V = 226,08 \text{ cm}^3$	$V = 64 \text{ cm}^3$
--------------------------	---------------------------	-----------------------
