Ecotourism- good or bad?

Every year more people go on holiday to amazing places like Africa and India to see animals in their natural habitat. But is it good for the animals?

There are a lot of good things about ecotourism. To start with, people are creating new wildlife parks for the tourists to see the animals. The animals are safe in these parks because there are no hunters. Secondly, tourists pay money to see the animals and this helps the local people.

But there are some problems with ecotourism. Most tourists are very careful but some people drop rubbish and food which the animals eat. Some animals are learning to take food from people too, which isn't good for their health. On the whole ecotourism is usually a good thing, and it's a great way for people to learn about animals which, in the past, they only saw in zoos or pet shops. However, tourists should be careful when they visit these amazing places.

1. The text only describes the benefits of Ecotourism.
2. Ecotourism means seeing animals in their natural areas.
3. People are building new zoos at present.
4. Ecotourism benefits the local people.
5. It's dangerous for animals to eat the food people drop.
