Listening 6 (Answers)

You will hear a woman giving information about dolphins. Answer the questions.

1. Why do dolphins swim fast?

They swim fast because of their tail and their skin.

2. What is a pod?

A pod is a dolphin family.

3. Why must dolphins come to the surface?

They must come to the surface because they need to breathe.

4. How do dolphins get their food?

They get their food by hunting fish together.

5. Which is the dolphins' special ability?

Their special ability is that they use sounds and echoes to talk among them and feel their surroundings.
