6. Who is in your family? (**young**)

VI. Read and write T (True) or F (False). (.... / 6)

Many people think insects are pests that kill plants and bite people, but many insects are helpful too.

Some insects protect your garden. For example, ladybugs eat garden pests. Without ladybugs, these pests would eat your vegetables and flowers. Some insects also protect you. For example, dragonflies eat mosquitoes. Without dragonflies, these mosquitoes would bite you. Some insects help plants too. For example, bees carry pollen from flower to flower. This helps the flower make seeds.

1. Most of the insects kill plants and bite people.
2. Ladybugs eat vegetables and flowers.
3. Dragonflies can protect people.
4. Dragonflies' food is mosquitoes.
5. Bees eat the pollen from the flower.
6. Carrying pollen from flower to flower helps flower make seeds.
