Revision of Integers

Remember to apply the rules when performing the four rules over integers.

1. -38 - (-22) = 24

2. -144 ÷ (-6) = 20

3. 67 + 81 = -16

4. 19 x (-3) = +148

5. $\frac{-220}{-11}$ = -57
