

Revision of Integers

Remember to apply the rules when performing the four rules over integers.

1. $-38 - (-22) =$

24

2. $-144 \div (-6) =$

20

3. $67 + 81 =$

-16

4. $19 \times (-3) =$

+148

5. $\frac{-220}{-11} =$

-57
