Read the text. Then answer questions 6 to 8.

What does the word "house" mean to you? A house is a shelter for people to live in. It protects us from danger and bad weather. We do many things in a house. We eat, wash, sleep and rest there. A house also provides wonderful memories for each family. Look around your room. You might find a mark on the wall that shows how much you've grown, or some coffee stains on the carpet. When you visit your friend's house next time, try to find a story like that around the house.

• shelter: • protect: • rest: • look around: • stain: • carpet:
