Writing 2

The Wright Brothers: The first Successful Airplane

Wilbur wright was born on April 16, 1867 in Millville, Indiana and Orville Wright was born on August 1871 in Dayton, Ohio. Both brothers were pioneers credited with inventing the first airplane. In late 1901, the Wright Brothers had gathered the aerodynamic data they needed to build a successful flying machine, and in 1902, the Wright Brothers started to built their latest glider based on this data. They kept designing and developing their invention to make air transportation possible for people all over the world. The first flight of their invention lasted 12 seconds, traveling 36 meters or 120 feet above the ground. The first successful airplane flight was made a year later in the United States.

No.	Questions	Responses	
1.	Does it use appropriate verbs in past forms (verb 2)?	Yes	No
