Read the text.

In the fantasy world of *The Hobbit* and *The Lord of the Rings*, the hobbits have got unique homes with round doors, round windows and a pretty garden. They look great, but there is one big problem: they are far too small! Luckily though, there is now a hobbit house that people can enjoy!

This real-life hobbit house is in a forest in the Welsh countryside. Many of the building materials in the house are natural. For example, it has got straw walls, wooden ceilings and a grass roof. Outside, there is a large garden, a fun playground and a pond with lots of trees.

Inside the house, there is a bedroom, a toilet, a kitchen and a living room. There is an area just for toys and a huge round window where you can get a fantastic view of the woods! Most of the furniture is handmade, such as the tables and chairs. For electricity, there is a solar panel so the people in the house can enjoy all the comforts of modern life. It really is a dream home!

1 ★ **Now, mark the sentences *T* (true) or *F* (false).**

1 The hobbit house has got round windows. T F
