IV. Read the passage, then decide if the statements that follow are True - False.

Environmental pollution is a term that refers to all the ways by which man pollutes his surroundings. Man dirties the air with gases and smokes, poisons the water with chemicals and other substances, and damages the soil with too many fertilizers and pesticides. People operate machines and motor vehicles that fill the air with disturbing noise. Environmental pollution is one of the most serious problems facing mankind today. Air, water and soil are necessary to the survival of all living things. Badly polluted air can cause illness and even death. Polluted water kills fish and other marine life. Pollution of soil reduces the amount of land for growing food. Environmental pollution also brings ugliness to man's naturally beautiful world.

19. The air is dirtied with gases and smokes by man. _____
20. Nowadays, environmental pollution is one of the most serious problems facing mankind. _____
21. Polluted air can't cause illness and even death. _____
22. The amount of land for growing food is reduced because of pollution of soil. _____
