

1. Señala las operaciones combinadas que están mal.

$$\begin{array}{c} 8 - 2 + 5 \\ \swarrow \searrow \\ 8 - 7 \\ \swarrow \searrow \\ 1 \end{array}$$

$$\begin{array}{c} (8 - 2) + 5 \\ \swarrow \searrow \\ 6 + 5 \\ \swarrow \searrow \\ 11 \end{array}$$

$$\begin{array}{c} 245 - (16 + 5) \\ \swarrow \searrow \\ 229 + 5 \\ \swarrow \searrow \\ 234 \end{array}$$

$$\begin{array}{c} 3 + (4 + 5) \\ \swarrow \searrow \\ 3 + 9 \\ \swarrow \searrow \\ 12 \end{array}$$

$$\begin{array}{c} (9 - 3) + 2 \\ \swarrow \searrow \\ 6 + 2 \\ \swarrow \searrow \\ 8 \end{array}$$

$$\begin{array}{c} 11 - (6 - 3) + 4 \\ \swarrow \searrow \\ 5 - 3 + 4 \\ \swarrow \searrow \\ 2 + 4 \\ \swarrow \searrow \\ 6 \end{array}$$

2. Une cada operación con la propiedad de la suma correcta.

$$\begin{array}{c} 12 + 5 = 5 + 12 \\ \swarrow \searrow \quad \swarrow \searrow \\ 17 = 17 \end{array}$$

$$\begin{array}{c} (2 + 4) + 3 = 2 + (4 + 3) \\ \swarrow \searrow \quad \swarrow \searrow \\ 6 + 3 = 2 + 7 \\ \swarrow \searrow \quad \swarrow \searrow \\ 9 = 9 \end{array}$$

Propiedad asociativa

Propiedad conmutativa
