# LA RESTA ESCALANDO

Nivel 2 (2 cifras "familia 10"-1 cifra)

Florentino Pérez renovará el Estadio SANTIAGO BERNABEÚ para convertirlo en el mejor estadio de Europa. Si la obra le va a costar 19 millones de euros y ya tiene ahorrados 8 millones ¿Cuántos millones de euros le faltan?

|                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                             |
