2 Read the text and complete the sentences.

Tiger Street Club Report

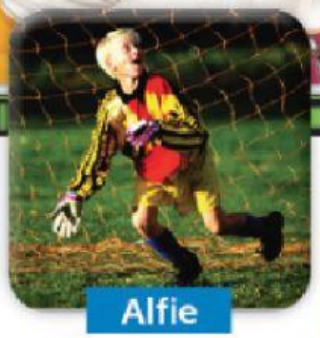

In the UK ... *Children do many activities at the weekends. Swimming, meeting friends and playing computer games are very popular. Some children are members of a football club. They play football and watch matches in stadiums, too. Other children are members of museums. They see exhibitions.*

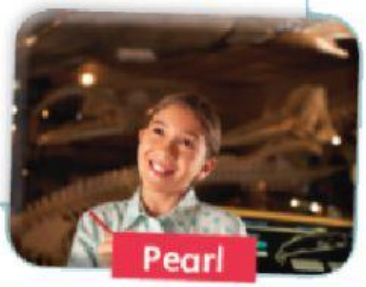

What I like doing at the weekends

At the weekends, I like seeing my friends and doing sports. My favourite activity is playing and watching football. My dad and I are also fans of Chelsea Football Club. We sometimes go to the stadium in London to watch our team play.

My sister, Pearl, doesn't like football. When I watch football with my dad, she goes to a museum with my mum. She's a member of the Natural History Museum. She can see special exhibitions for free.
