**Question 15.** A lot of generous businessmen have \_\_\_\_ valuable contributions to helping needy people.

- A. done      B. taken      C. made      D. given

**Read the following passage carefully and then to choose the best option to fill each space:**

Heritage is traditional (1) \_\_\_\_, customs, and culture. We use the word "heritage" in many different ways. People talk about their family's heritage, their city's heritage, and their country's heritage.

Here are some examples of heritage. During Chinese New Year, people in Taiwan give red envelopes. That is part of Taiwanese (2) \_\_\_\_\_. Every year in the American city New Orleans, there is a huge party called Mardi Gras. That is a part of New Orleans' heritage. Heritages can also be more (3)\_\_\_\_\_ and personal. If your family has a big dinner every Sunday night, that's part of your family's heritage.

Today, heritage is changing. The Internet connects people around the world. In many ways, this is a good thing, (4) \_\_\_\_\_ we can learn about the heritage of other countries, and we can show our own heritage to the world. However, some people worry that traditional heritage is (5) \_\_\_\_\_. Think about it. In many ways, countries are becoming more and more (6) \_\_\_\_\_. In just about every country around the world, you can find MacDonald's, Nike shoes, Starbucks coffee, and American films. Some people think it is a good thing. However, almost everyone wants to protect (7) \_\_\_\_\_ traditional heritage, and sometimes this is hard. for example, when a new MacDonald's opens in your town, a traditional restaurant might have to close.

This is why heritage (8) \_\_\_\_\_ is so important. Heritage protection is a simple idea. It means (9) \_\_\_\_\_ your country's or your city's heritage alive. People do this in many ways. The biggest part of heritage protection is probably preserving old buildings. (10) \_\_\_\_\_ other examples of heritage protection are making sure your children speak your traditional language, and teaching your heritage to children

The world is changing very fast. This change brings a lot of good things. But as the world is changing, it is important to remember the heritage of our parents and our grandparents.

**Read the following passage carefully and then to choose the best option to fill each space:**

The Ministry of Industry and Trade will coordinate with the State Bank of Vietnam to remove difficulties for petroleum enterprises in accessing credit guarantee funds in a bid to prevent disruption in the domestic market.

At the National Assembly's session on 2022 socio-economic performance and the 2023 development plan on Friday, Minister of Industry and Trade Nguyễn Hồng Diên said the move was a prerequisite for petroleum businesses to maintain their business and prevent large-scale disruption nationwide.

In recent days, many petrol stations in the southern region have closed, partly because of losses, and partly because of supply shortages.

Tạ Thị Yên, deputy from northern Điện Biên Province, said according to the national energy security strategy, there are two refineries of Nghi Sơn and Bình Sơn, which guarantee up to 70-80 per cent of output, and the country only has to import the remaining 20 per cent.

However, the shortage of petrol supply still occurred at many petrol stations in HCM City. She asked for an explanation of the cause of the incident and the changes that should be made for improvement.

Explaining the issue, Minister of Industry and Trade Diên said according to current regulations, petroleum management has been assigned to seven ministries and 63 cities and provinces. So, it is necessary to closely coordinate among these ministries and authorities to manage it well.

He said the ministry has been assigned to manage petroleum supply and demand and operate the system. But in order to do that, the ministry needed the banking industry's support in credit lending and guarantees for petrol enterprises.

In order to help petroleum enterprises to survive and sustain their dealer and retail system, the sector needed to guide and update the cost of sources and other actual expenses in the calculation of the petroleum base prices.

In this way, enterprises could survive and handle their dealer and retail systems during difficult times.

In addition, Diên said that there should also be a role of local authorities in licensing and managing nearly 17,000 agents and retailers.

Affirming that the petroleum market is basically stable, he said Việt Nam is always among the countries with the lowest retail prices in the region and the world.

He described the insufficient petroleum supply incident as "regrettable and unusual".

**Question 1:** Who will The Ministry of Industry and Trade work with to remove difficulties for petroleum enterprises?

- A. International Bank
- B. National Bank
- C. Cooperative Bank
- D. Commercial Bank

**Question 2:** According to Minister of Industry and Trade Nguyễn Hồng Diên, What is the purpose of the coordination between The Ministry of Industry & Trade and State Bank of Vietnam?

- A. To assist petroleum businesses to maintain their business and prevent large-scale disruption nationwide.
- B. To limit petroleum businesses to maintain their business and prevent large-scale disruption nationwide.
- C. To encourage petroleum businesses to maintain their business and prevent large-scale disruption nationwide.
- D. To discourage petroleum businesses to maintain their business and prevent large-scale disruption nationwide.

**Question 3:** In recent days, why have many petrol stations in the southern region closed?

- A. partly because of losses

- B. partly because of supply shortages
- C. partly because of losses, and mainly because of supply shortages
- D. partly because of losses, and partly because of supply shortages

**Question 4:** What did the sector need to do in order to help petroleum enterprises to survive and sustain their dealer and retail system?

- A. the sector needed to guide and fix the cost of sources and other actual expenses in the calculation of the petroleum base prices.
- B. the sector needed to guide and update the price and other actual expenses in the calculation of the petroleum base prices.
- C. the sector needed to guide and update the cost of sources and other actual expenses in the calculation of the petroleum base prices.
- D. the sector needed to guide and update the cost of sources and other actual interest in the calculation of the petroleum base prices.

**Question 5:** According to current regulations, what has petroleum management been assigned ?

- A. local authorities
- B. Minister of Industry and Trade
- C. Enterprises
- D. seven ministries and 63 cities and provinces.
