

Nombre: _____ Número: _____ Curso: _____

Este es el método de Raúl para calcular la diferencia entre 5000 y 2487.

$$5000 - 2487 = \boxed{?}$$

$$5000 - 2487 = \boxed{2513}$$

$4999 - 2487 = 2512$
 $2512 + 1 = 2513$

1 Usa el método de Raúl y completa:

a) $\boxed{6000} - \boxed{5217} = \boxed{}$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

b) $\boxed{4002} - \boxed{2359} = \boxed{}$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$

b) $\boxed{7001} - \boxed{3225} = \boxed{}$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} + \boxed{} = \boxed{}$$
