Questions 158-160 refer to the following notice.

ROBERTSON APARTMENT COMPLEX UPCOMING ELECTRICITY RESTRICTIONS

Due to the extreme heat this summer, electricity usage has been at a record high in the Robertson Apartment Complex. This is causing problems with the local electricity provider, so the amount of electricity that can be used here will be restricted during August.

Please read the information below carefully. Those with questions can call the company's customer service hotline at 958-2390. Ask to be connected with David Suter, who will personally handle all inquiries.

Restrictions: Electricity usage must be reduced from 9 A.M. to 9 P.M. Each unit can use no more than 20kWh during this 12-hour period. This can mostly be done by reducing the amount of time air conditioners operate. Try running them on low power rather than on full power. In addition, not turning on lights and using fewer appliances can reduce your electricity usage.

The price of electricity during these hours will be increased by 15% during August to discourage the overuse of power.

From 9 P.M. to 9 A.M., there will be no restrictions on the amount of electricity residents can use.
